

Brownfield Environmental Site Assessment Request Form

This form applies to the areas between Gakona Village and Mentasta Village

Thank you for taking the time to help us identify potential brownfields in your community. This information will help us better understand where future work may be needed. This is an attempt to only collect information and not for any legal purposes. We may contact you with questions if we need more information about the site you have identified for consideration. The information that you provide will be confidential.

Name of your community:

Name of the person completing this form:

Contact Information

- Telephone _____
- Fax _____
- Email _____

Site Information:

1. Where is the site? Describe where the site is in reference to landmarks (for example, one mile north of Mable Creek). Please give the address, if known.

2. Who is the current owner of the property?

3. What is/or was the property used for? (For example, it was a tank farm before but it is now a vacant lot)

4. What substance do you think the property is contaminated with? (For example, diesel)

5. What do you think caused the contamination? (For Example, was there a specific spill that you know of?)

6. Describe the site's current condition (circle one):

Active

Inactive

Abandoned

Unknown

7. How close is the site to other structures, subsistence resources, water bodies or drinking water sources, etc.?

8. What would you like to see this site reused as? How would the community benefit from such reuse?

Thank you for you participation!!
